**eCommerce Website
Development Packages**

About this Document

We always seek to make our clients' work with us as smooth and timely as possible, hence the need for this document. In here are the eCommerce Website Development Packages that you can choose from to get started with your project right away.

Each package has its set of features which can be reshuffled to suit your preferences; features can be added and removed as you might find necessary but the eventual cost could be different.

We usually receive payments on projects in installments. Information regarding the installments applicable to each package has also been added. Kindly check and feel free to provide us feedback afterwards.

Thank you.
